# DIPLMA IN CHILD PSYCHOLOGY

## LEVEL 4 & 5

## Why Study Child Psychology?

The aim of this subject is to develop an understanding of foundational Psychology theories, approaches, concepts, nature and nature influences on human behaviour and mental process. And also to develop an understanding of ethics in the context of counselling to learn critical thinking and ethical issues of the child.

Studying the course will help you to get a clear understanding of the importance of play in a child's life, how they think and feel and how they develop in terms of language and social interaction.

## Who is this course for?

- Any individual (Parent, Educator, counsellor or carer) who is involved with children on a day to day basis.
- Those who are looking to pursue a career in child psychology will find this to be an excellent introduction to the subject – giving you both a solid foundation of knowledge on which to build and the confidence to commit to further study.
